

## NuDrill Complete

*Lubricating Pill*

### Background

NuDrill Complete is a prepackaged Lubricating Pill for running liners and sliding operations. No more waste, fewer lifts and fewer damaged sacks. Easy to mix pre-packaged Lubricating Pill. No need to order whole pallets to mix a pill and worry about returning unused sacks. NuDrill Complete can be packaged to your specifications. NuDrill Complete creates a ball-bearing effect between surfaces and embeds and paves the wellbore. It also has capillary breaking capabilities while mechanically and chemically lubricating the system.

### Properties

Appearance	Pill form
Odor	None
Bulk Density, lbs/gal	N/A
Specific Gravity	N/A
pH	N/A
Flash Point	N/A
Freeze Point	N/A
Corrosive	No
Solubility in Water	N/A
Active	100%

### Advantages

- ENVIRONMENTALLY SAFE
- Lubricates wellbore to assist in successful casing runs and successful sliding operations
- Can be pumped in sweeps to reduce torque and drag

### Storing & Handling

NuDrill Complete should be stored between 15° F and 120° F (-10° C and 50° C). Keep from freezing. Refer to MSDS (Material Safety Data Sheet) for further safety and disposal information. NuDrill Complete is available to meet your specifications. Freight classification is “non-regulated material.” Per DOT, IATA, IMDG.
