

## NuFlo™ 25 AG

*Biocide*

### Background

NuFlo™ 25 AG aims to kill microorganisms, especially bacteria, and interferes with their activity. This biocide range is made up of regulated Industrial Biocides and industry standard products. These prevent microbial attack within the oil recovery process.

### Benefits

- Inhibits bacteria growth
- Interferes with bacterial functions
- Prevents bacterial proliferation

### Properties

Appearance	Yellow Liquid
Odor	Characteristic
pH	3.6
Freezing Point	-5°C
Boiling Point	>100°C
Vapor Pressure	17.5 mmHg
Density	1.06 g/cm <sup>3</sup>
Relative density	1.06
Solubility in Water	Soluble
Active	100%

#### Stability and reactivity

**Substances to avoid:**

acids, bases

**Hazardous reactions:**

The product is chemically stable.

**Hazardous decomposition products:**

carbon monoxide, carbon dioxide

**Thermal decomposition:**

No data available.

### Storing & Handling

NuFlo™ 25 AG should be stored between 15° F and 120° F (-10° C and 50° C). Keep from freezing. Refer to MSDS (Material Safety Data Sheet) for further safety and disposal information. NuFlo™ 25 AG is available in 55 gallon drums and 275 gallon totes. Freight classification is “non regulated material.” Per DOT, IATA, IMDG.

*See MSDS for additional information*
