

## NuFlo™ Descale 1014-10

*Iron Scale remover*

NuFlo™ Descale 1014-10 is safe to use on glass. It dissolves all times of water scale and lime, especially in the oil and gas industry. It also treats aluminum, brass copper, stainless steel. This product is also classified as a degreaser

### Background

NuFlo™ Descale 1014-10 is a highly concentrated industrial/professional strength scale remover for heat exchangers, HVAC, heating, refrigeration and air conditioning coils and fins. Cleans, degreases, and removes oxides, heat scale, rust, and buildup in one easy step.

### Characteristics

NuFlo™ Descale 1014-10 removes oxidation and promotes efficient operation and reduced power consumption. Does not contain dangerous fluorides. This product has a mild odor and comes in a moderate foam form.

### Benefits

- Dissolves all types of water scale and lime
- Works on aluminum, brass, and copper
- Can be used in colder temperatures
- Is classified as a degreaser

### Properties

pH, concentrate	1.0
pH, @ 5% b.v.	2.0
Bulk Density, #/gal	9.7
VOC (@ max. use Conc.)	0 G/l
Solubility in water	Complete
Flash point	None
Contains Hydrofluoric acid	NO
Contains Hydrochloric acid	10%

### Storing & Handling

NuFlo™ Descale 1014-10 is available in 55 and 275 gallon containers. Bulk tank shipments also available. Keep from freezing. Store between 40-120°F.
