

### Parts Cabinet Washing – High Pressure Spray Cleaning: Non-Ferrous alloys - Fabricated Metals, Parts Cleaning, Metal Finishing, Solvent Free Degreasing Specially Designed for Industrial Copper and Brass spray-tank cleaning.

**Applications:** NuGeneration Technologies **NuGenTec** line of multi-metal alkaline aqueous cleaners are highly effective, cost efficient, biodegradable, contain no VOC's and are safe to use. These products are designed to remove soils, grease, shop oils, inks, carbonaceous deposits, smut, metalworking fluids, screw machine oil, drawing, buffing, lapping compounds, and burned on waxes/oils. **AC 22** protects against corrosion on aluminum, brass and copper. With it's built in defoamer this product will not foam even if contaminated with foaming coolants or soils. Cleaning times can be reduced with increasing temperatures. Splits oil on sitting, so that it may be skimmed out.
