## Antibacterial Heavy Duty Cleaner & Odor Counteractant

### DESCRIPTION

Most disinfectant cleaners have gained EPA registration with standards allowing surfaces to remain wet for ten minutes before testing for germicidal effectiveness. But ten minutes is not always practical for spray and wipe use. POTEN Anti-Bacterial Heavy Duty Cleaner is the answer. With POTEN AB, most microbes are killed within 3-5 minutes and some in as little as 30 seconds. Check the label for use directions and dwell times.

### GERMICIDAL EFFECTIVENESS
